We have close relationships with European underwriters and licensed brokerage firms as well as institutional investor contacts. In addition, we are experts at IPO promotion and advertising.

We specialize in IPOs and can assist your company in conducting an IPO for the purpose of raising capital.

Corporate Bond Offerings

A Frankfurt Stock Exchange or London Stock Exchange corporate bond offering allows your company to raise money without dilution to any of the shareholders. On 26 January 2012, the 10th corporate bond was listed on the Frankfurt Stock Exchange's Entry Standard segment (the Entry Standard segment only began allowing bond listings in March 2011). The Entry Standard segment has proven the issuance of corporate medium-sized companies. A listed on the Frankfurt Stock accompanied by an approved for advertising and promotion Since only March 2011, Standard listed bonds have approximately €390 million financing. The capital raised via these ten recent Entry Standard bond listings was between €15 and €70 million. This proves that even attractive smaller companies with smaller financing requirements are successfully placing their corporate bonds on the Entry Standard segment of the Frankfurt Stock Exchange.

to be very well suited for bonds for small and corporate bond is not only Exchange, but is also prospectus, which allows to the general public. companies with Entry received a total of through corporate bond

SFP and its law firm will take care of everything needed for the bond listing, including the bond rating and promotion to institutional investors.

Private Placements

Corporate finance for private companies planning to list on a stock exchange requires a deep understanding of the laws and regulations surrounding private and public offerings. SIFG and FSE Law have the know-how and expertise to provide a financing solution that meets the needs of our clients.

We prepare customized corporate finance solutions with legal expertise in the U.S. and Europe. Our expertise lies in our knowledge and ability to create custom financing structures for companies, including pre-IPO private capital raises and other exempt offerings. SFP and its team of attorneys are experts at providing financing solutions that are both effective and legal, including all aspects of the capital raise.

Other Exempt Offerings

We are experts at structuring unique pre-IPO capital raise offerings, utilizing proprietary and little-known available exemptions which in some instances even allow advertising of the offering prior to the approval of the public offering.

Stock exchange prospectuses

Prospectus

Once accepted by SFP's review committee, we include a prospectus, with our listings so that your company can conduct a common stock initial public offering (IPO). We structure an IPO on the relevant stock exchange, prepare the prospectus and our law firm handles the prospectus approval process. We can also passport the prospectus throughout the EU.

Bond listing and public offering

We also prepare bond listing prospectuses for public bond offerings. A bond that is listed and approved allows your company to raise money without dilution to any of the shareholders. On the Entry Standard Stock Exchange or the Frankfurt London Stock Exchange, we can structure and list a corporate bond, so that you can conduct a legitimate public bond offering. Please note that you must have an approved prospectus in order to list a bond and your company must be listed on a segment that can list offerings. Bond offerings can be custom structured to the specifications you desire, and can also be advertised publicly (since the company would have an approved prospectus). For a bond offering, a company should have sufficient revenues and net income.
